

Are You At Risk? Let's Talk EMV

EMV is short for Europay, MasterCard, and Visa, EMV technology uses a chip that's embedded in a credit or debit card as opposed to storing information on a magnetic strip. The idea behind this concept is that inserting your card is more secure than swiping your card. As a merchant refreshes their terminals for EMV, they are also adopting a contactless capability which lays down the foundation for future payments such as mobile proximity payments. Gilbarco is making it easier to meet the EMV fuel court deadline of **October 1, 2020**. Being faced with the long-term consequences of being held liable for counterfeit fraud that could result in chargebacks isn't worth the risk. Once you understand what EMV is all

Upcoming Training Schedule:

- **Veeder Root ATG**
September 11-14, 2017
- **Flexpay IV**
September 27, 2017
- **Dispenser**
October 2-6, 2017
- **Passport**
October 23-27, 2017

about as well as the benefits and risks, you can begin taking a look at all the solutions that Gilbarco Veeder-Root has pioneered to help gas station and c-store owners with EMV compliance. The deadline for in store EMV transactions was October, 2015.

Worried About EMV Compliance?

Become Compliant & Maximize Your C-Store's Potential

The Passport Point of Sale system provides you with the tools you need to grow, control, and track your business. With the richest third-part interfaces on the market, an easy to use touch screen, accurate reporting features and reliable service, you can stay on top of your c-store POS transactions while being guaranteed expert support when you need it.

All-in-One Convenience: The Passport PX60 all-in-one packs full-size power into a sleek, simple countertop unit. It provides a bigger, more durable screen, record-breaking response times and lightning-fast data imports. And there's no under counter PC to take up space and add complexity.

With fewer cables, Passport PX60 is an attractive package that offers a lot more power in a lot less space. Additionally, you will enjoy a better-looking counter area, more space to sell, a simpler install and faster transactions.

Easy to Use: Passport gets new cashiers up to speed in minutes, with no codes to

remember and no awkward toggling between screen and keyboard. Customizable tips and prompts help even seasoned cashiers serve customers better. When seconds count, Passport delivers.

Accurate Reporting: Managing your c-store involves many different responsibilities. Gilbarco's logistical services can keep an eye on your logistical details so that you don't have to. That means more time in your pocket to dedicate to yourself and your other c-store tasks.

Unbeatable Support: Remote dial-in support enables Gilbarco Help Desk to dial in a diagnosis and fix software-related issues, reducing technician site visits and service costs. A network of ASCs is available for on-site work when necessary. The Gilbarco Help Desk is available 24/7.

Our Solution For You: Gilbarco Passport Point of Sale customers with PX51 and/or PX52 hardware can Trade-Up existing hardware to the PX60 All-in-One platform. You can now purchase a new Passport PX60 All-in-One terminal at a discounted price by agreeing to return your current like for like Passport terminal (Server, Combo, or Client).
